

CAREERS NORTH TOURS 2023

Skills Manitoba/Northern Manitoba Sector Council

WHAT ARE THE CAREER AWARENESS TOURS?

Skills Manitoba and the Northern Manitoba Sector Council are excited to announce the 2023 Career Awareness Tours. This event is intended for education and training coordinators (and this year we are inviting educators to bring Gr. 12 students who they think would benefit from attending!), to highlight resource industry careers available in northern Manitoba.

Many exciting and rewarding careers are available within the mining, forestry, manufacturing, and hydro-electric generation sectors. There is a wide range of career possibilities within these sectors at all levels, from exploration and field operations, to production and trades, management, finance and administration. Many companies offer high-paying permanent positions located in dynamic northern communities that boast modern amenities, northern attractions and high quality of life.

Our objective is to raise the awareness of regional career opportunities among northern students at the secondary and post-secondary school levels through career counseling at their organization.

This year's tours will entail presentations and facility tours of the following:

Tour	Date	Time	Location
1	Tues. Feb. 21	Half day	VALE (Thompson)
2	Weds. Feb. 22	Full day	Manitoba Hydro (Thompson), Wuskwatim, ATEC (Nelson House)
3	Thurs. Feb. 23	Full day	UCN, North Forge (Thompson)
4	Thurs. Mar. 9	Full day	CKPI, UCN (The Pas)
5	Fri. Mar. 10	Full day	Spruce Products Ltd., LP Building Products (Swan River)

Participants will be able to pick and choose which tours they would like to attend. For those participants who are travelling into Thompson, The Pas or Swan River from out-of-town, ground transportation, meals, and accommodation costs will be paid for through the generous funding provided by the Northern Manitoba Sector Council. Transportation on the days of the tours will be provided through car-pooling. Lunch will be provided each day. Tour registration forms are attached, and an agenda will be provided once you have registered. Please note that there may be some restrictions concerning Gr. 12 students who are travelling with educators and this can be discussed with the tour registrar.

As someone identified with an interest and expertise in increasing the awareness of our current and future labour market, we would be honored by your attendance. If you know of someone who would benefit from this experience, please pass this information onto them.

TO REGISTER, OR FOR MORE INFORMATION, PLEASE
