9+1 SKILLS FOR SUCCESS

ADAPTABILITY

We use adaptability to achieve our goals when expected or unexpected change occurs, by planning, staying focused, and overcoming obstacles.

Why this skill is important

Things don't always go according to plan, so it's important for us to be flexible and adaptable to succeed when things change in our lives.

READING

Your ability to find, understand, and use information presented through words, symbols, and images.

Why this skill is important

Reading helps you to understand and interpret the meaning within the text.

COLLABORATION

Collaboration allows us to work in a team or group to reach a common goal.

Why this skill is important

Strong collaboration skills help you build and maintain positive relationships with others, in school, at work and in other parts of your life.

WRITING

Your ability to share information using written words, symbols, and images.

Why this skill is important

We write to communicate ideas and information to other people.

COMMUNICATION

The act of giving, receiving, and sharing information — in other words, talking or writing, and listening or reading.

Why this skill is important

Strong communication skills help you share information in a way that others can clearly understand.

CREATIVITY & INNOVATION

Your ability to imagine, develop, and encourage, ideas in ways that are new.

Why this skill is important

Creativity and innovation skills help you come up with new, unique, or "outside the box" ideas or to approach something differently than in the past, both at school and outside school.

DIGITAL

Your ability to use digital technology and tools to find, create and share information and content.

Why this skill is important

Digital technology has changed the way you find and share information, solve problems, and communicate with others.

NUMERACY

Your ability to find, understand, use, and report mathematical information presented through words, numbers, symbols, and graphics.

Why this skill is important

Numeracy skills are needed in a wide variety of daily contexts, including managing your finances and making purchases.

PROBLEM SOLVING

Your ability to identify, propose solutions, and make decisions.

Why this skill is important

Strong problem-solving skills will help you gather the right information, identify, and solve problems, and make better decisions.

WHAT IS +1

The +1 represents the Technical Skills necessary for skilled trade and technology careers. Technical Skills relate to expertise someone possesses that assist in the completion of a job or task. In general, these are abilities acquired through practice and learning.
