

# Youth in Manufacturing

November 29, 2022  
Red River College, Notre Dame Campus

## Who is Skills Canada Manitoba?

Skills Canada Manitoba is a not-for-profit, charitable organization that works with youth, parents, communities, industry and government to increase awareness of the rewarding careers available in skilled trades and technologies.

## What is the Youth in Manufacturing program?

Imagine if you could tour a local company and see the creation of a three dimensional design on a computer, see the transfer of the design to a computer numeric control machine and then get to see the finished product?

Grade 9 and 10 students will be exposed to manufacturing processes from design to the building and assembling of a product and ultimately the marketing and sales process.

## What is the cost of the program?

The cost for this program for each participant is \$20.00. The cost for advisors is \$10.00. Includes an industry tour. Lunch will be provided for each participant and advisor.

Send completed registration forms and fees to:

Skills Canada Manitoba  
Unit 31-1313 Border Street  
Winnipeg, MB R3H 0X4
