

# Young Women in Technology Conference

## What is the Young Women's Conference?

A one day conference for young women to learn about technology careers available in today's employment market. The conference will highlight different areas of technology, including Civil Engineering, Computers, Electronics and Robotics.

## What is the day like?

*For Young Women...* You will team up with high school guides to build and test spaghetti bridges, build a widget, construct circuits, operate industrial robots, and welding simulators. There will also be entertaining and informative speakers, tours, fun contests and door prizes.

*For Advisors...* You will get to participate in most of the previously listed student activities. There will also be a break-out session for advisors that will provide helpful information to guide young peoples' choices and career paths.

## Who it is geared for?

This conference is geared for Grades 6-8 young women plus their advisors. Ideally young women attending should be interested in learning about new and different career opportunities in engineering technology fields. The conference aims to give youth the message that math, science and technology skills are increasingly more valuable, fun and financially rewarding.

**Who is Skills Canada Manitoba?** Skills Canada Manitoba is a not-for-profit, charitable organization that works with youth, parents, communities, industry and government to increase awareness of the rewarding careers available in skilled trades and technology.

**June 13, 2019**

**Red River College-Notre Dame Campus— Skilled Trades and Technology Centre
