Great jobs...

Great future!

Skills Canada Manitoba and its partners in business, industry, labour, education, and government, are helping to secure **Canada's future skilled workforce** needs by:

- providing unique programs to raise awareness of current and emerging skilled trades and technology careers;
- bringing Canadian youth into a competitive spotlight;
- developing dynamic partnerships with agencies and organizations involved in promoting skilled trades and technology; and
- identifying and using best practices

- Recognition on (sponsored) program event flyer

Skills Canada Manitoba hosts many events throughout the year. Following are brief outlines of the **Winnipeg and surrounding area programs**.

PROGRAMS WE OFFER

In-School Program

An in-school presentation program for grades 5 to 12 that provides young people from across the province with information about the vast career opportunities in the skilled trades and technologies.

Northern Manitoba Programs

A series of skills trades and technology programs for Northern Manitoba; the Northern In-School Program, Young Women's Conferences, Skills Trades and Technology Showcases, the Extreme Sledding and Trade and Technology Olympics.

Skilled Trade and Technology Showcase

A one day program for grade 8 students, spent at a host school, where they have the opportunity to try hands on activities and to learn about different careers in trade and technology. The showcase is designed to educate students on a variety of occupations and opportunities that exist in Manitoba in trades and technology. The day is a combination of hands on learning, demonstrations and presentations from individuals working in different Manitoba industries.

Cardboard Boat Race

This program demonstrates the importance of studying science, math and technology in a fun, practical and interactive manner. It's amazing to witness a team of grades 10 to 12 students build a boat with cardboard, glue, duct tape and string and watch as they race their boat across a pool of water to the finish line.

Young Women's Conference

A one day conference for young women to learn about trade and technology careers available in today's employment market. The conference highlights different vocations in trades and technology, introduces young women to women mentors working in the trades or technology field and provides employment and career planning information.

Model Wind Turbine Competition

Grades 9 & 10 students across Manitoba have an opportunity to use their knowledge, skills, leadership, teamwork and ingenuity to design and build a working model wind turbine in this one day competition.

Extreme Sledding

Grades 7 students, in teams of four will design and construct a sled and then participate in a race through a motor-cross style course.

Youth in Manufacturing

Grades 9 & 10 students will be exposed to the manufacturing processes from design to the building and assembling of a product and ultimately the marketing and sales process.

Young Women in Technology Conference

A one day conference geared for young women in Grades 6-8 to learn about technology careers available in today's employment market. The conference will highlight different areas of technology, including Civil Engineering, Computers, Electronics and Robotics. The conference aims to give youth the message that math, science and technology skills are increasingly more valuable, fun and financially rewarding.

Skills Manitoba Competition

Our cornerstone event, is a one day event that provides young Manitobans the opportunity to showcase their talents in an Olympic style, province wide contest. Students compete in over 40 different hands on contests at the secondary and post secondary level that are designed (and judged) by industry professionals and educators. Winners of the provincial competition may form team Manitoba and compete against their peers at the Canadian Skills Competition, leading to the possibility of competing in the World Skills Competition.

Our Mission:

**To attract young Manitobans to careers in
skilled trades and technologies**

Our Vision:

**Skills Canada Manitoba will be a leader and vital
partner in meeting Manitoba's skilled workforce needs**
